

# MARK IT

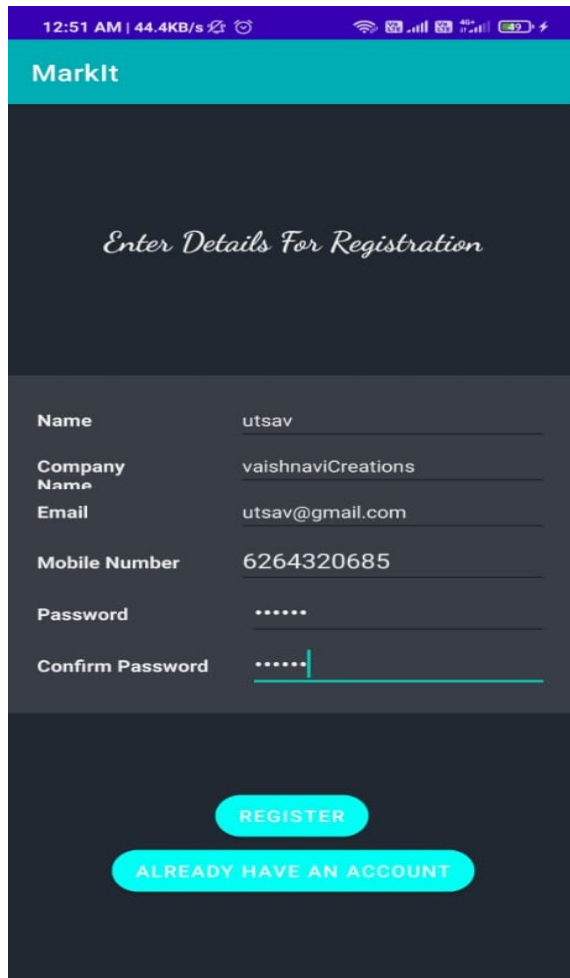

The motive of the MARK IT is to mark the attendance of the employees who work on a daily wages and keep their record of attendance and salary.

# MARK IT

- When we open up the app we would be directed to a page which contains options of login and register company.
- When we click on login you would be asked to fill in the details for login. There would be separate login for company and employee.

# MARK IT

The screenshot shows a mobile app interface for 'MarkIt'. At the top, a teal header bar contains the app name 'MarkIt'. Below this, a dark grey background features the text 'Enter Details For Registration' in a white, italicized font. A registration form follows, with labels and input fields for 'Name' (utsav), 'Company Name' (vaishnaviCreations), 'Email' (utsav@gmail.com), 'Mobile Number' (6264320685), 'Password' (masked with dots), and 'Confirm Password' (masked with dots). At the bottom, there are two teal buttons: 'REGISTER' and 'ALREADY HAVE AN ACCOUNT'.

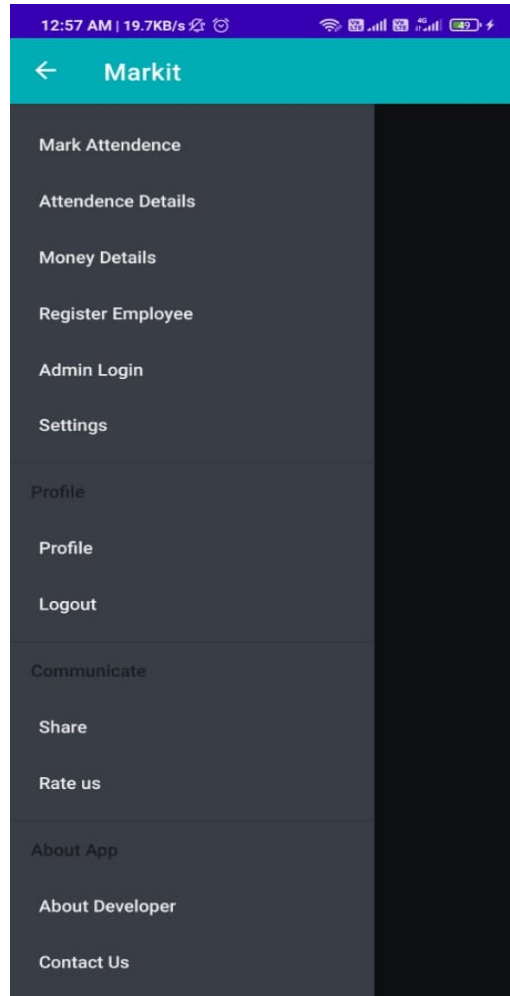

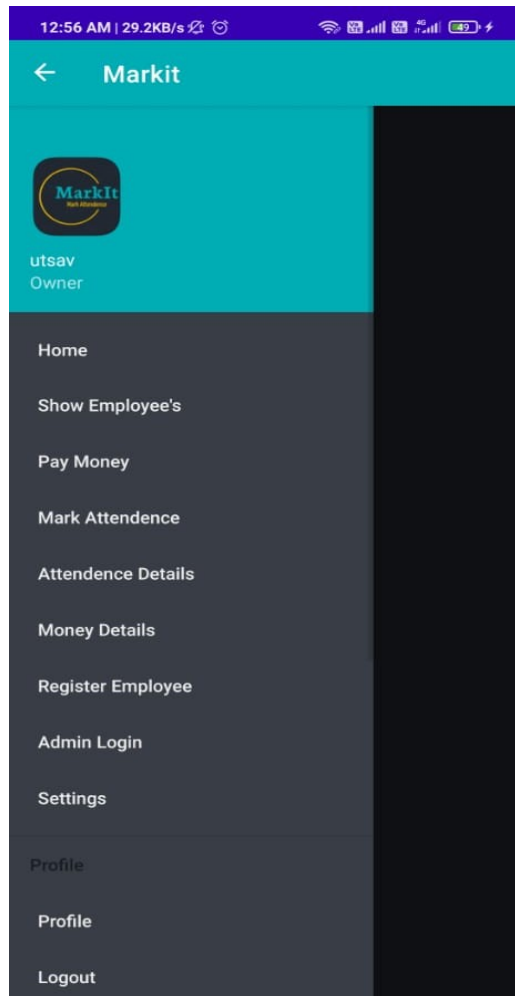

Name	utsav
Company Name	vaishnaviCreations
Email	utsav@gmail.com
Mobile Number	6264320685
Password	.....
Confirm Password	.....

REGISTER

ALREADY HAVE AN ACCOUNT

Here the company would register itself in order to use the app. After registration you would be directed back to the login page.

# MARK IT

- There would be a home page containing the options that the app would provide.
- Navigation drawer will tell us the options that the app would provide.

The image shows a mobile application interface for 'MarkIt'. At the top, there is a teal header bar with the app's name 'MarkIt' in white. Below the header, the interface is divided into two main sections. The first section contains two input fields: 'Date' with a date picker icon and 'Notification' with a text input icon. The second section contains two orange buttons: 'ADD NOTIFICATION' and 'DELETE NOTIFICATION'. The background of the app is a dark blue gradient.

- Pay Money: This option would help the user(company)to pay money to their employees.
- Mark Attendance: One who registered as a company would mark attendance of the employee.

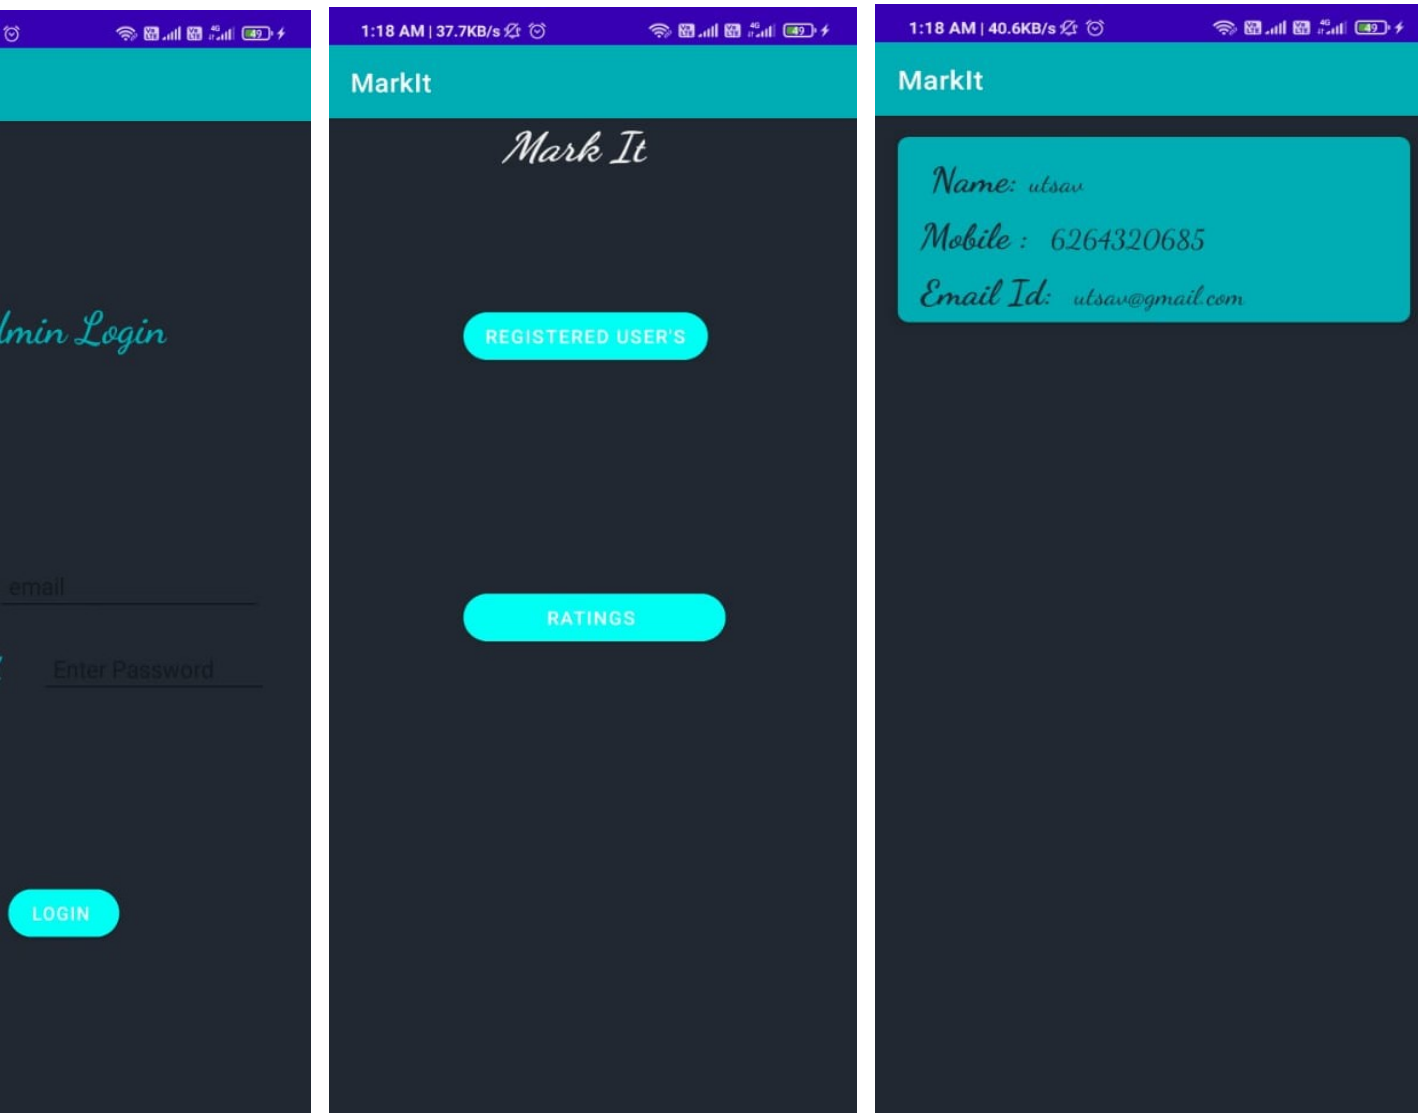

# MARK IT

- Attendance details : The company could see the attendance details of the employee. The employee who logged in with his details could also see his own attendance.
- Money details : here the options contain the date when employee paid by the company and if he is an employee then he would get the details when he is paid by the company.

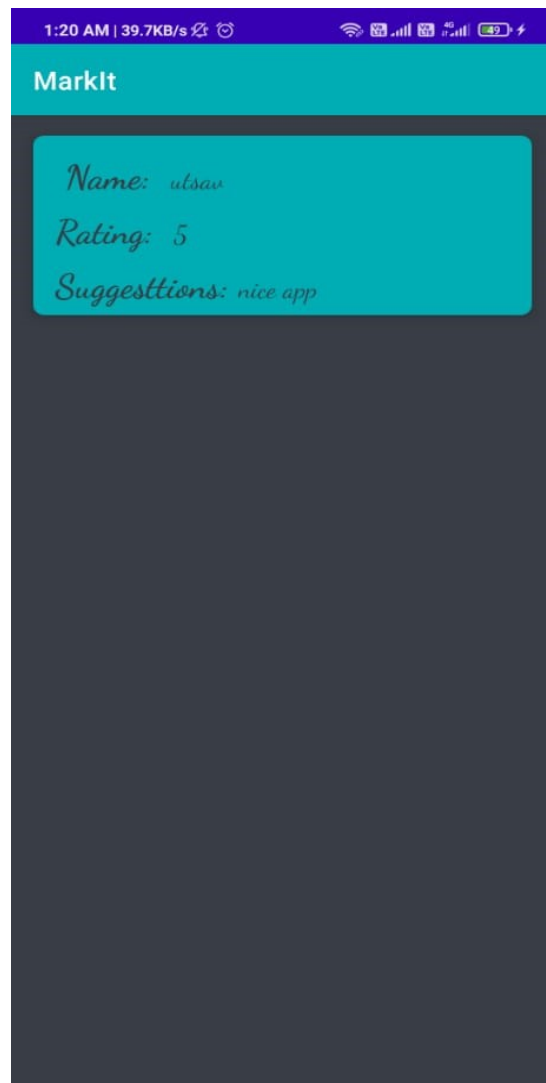

# MARK IT

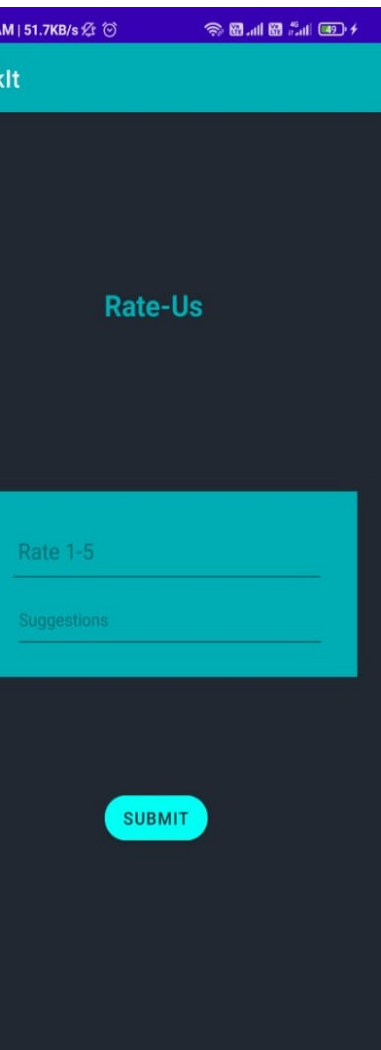

- Admin login : will contain details for where details of users are present and view in lists and how they have rated the app. This would take up the page where we could see registered users and ratings.

# MARK IT

- In first screenshot we could see ratings and suggestions entered by the user.
- Under profile section we could see the details of the user

# MARK IT

- RATE US : option is self explanatory.
